I handle Real Estate strictly on a commission basis and take no options. LIST YOUR PROPERTY WITH ME.

S. F. J. TRABUE,
SMITH BUILDING. PUNTA GORDA, FLORIDA.

NEIGHBORING TOWNS

Charlotte Harbor

Charlotte Harbor, Oct. 11—Weather much cooler than a week ago, with our usual autumnal breezes from the east.

A number of the citizens of Charlotte Harbor, met in mass meeting, Saturday night last, the object of which was to discuss important matters, pertaining to good roads and school buildings, etc. A committee was selected to meet with the good roads convention to be held in Arcadia on Saturday of this week.

Mr. J. E. Locklear and family have moved to Punta Gorda temporarily, where Mr. Locklear is engaged in heavy hauling.

Mr. K. Falkner, better known by many as the "Honey Man," of Pineland, Fla., spent Sunday with relatives in town. Mr. Falkner is a great church man and is always welcomed in our Sunday school and church services.

Miss Sadie Weatherly of Murdock, was in town today doing some shopping. Our merchants always welcome our Murdock customers, as it usually means a bill of goods sold.

Mr. and Mrs. A. C. Williams of Murdock were also in town today transacting business. Mr. Williams reports roads are drying off somewhat, since the rains have slackened up.—PIONEER.

Bermont

Bermont, Oct. 11—Mr. Charlie May, and Mr. W. H. Harn and family were visitors at Adrian Saturday and Sunday.

Mrs. Julia Coon returned home

Saturday from a visit to Arcadia. Mr. L. M. Thomas visited Arcadia and Nocatee during the week.

Mrs. Augusta Vanselow went to Arcadia Friday, where she could get medical attention. We hope to see her home again soon, restored to health.

Mr. Ed Edmonds and G. W. Gatewood transacted business in Arcadia the last of the week.

Mr. Joe Toth had the misfortune to lose one of his fine mules, with colic, during the week.

Mr. Sidney Vears returned to St. Cloud Thursday, after a brief visit with his daughter, Mrs. Burke.

The Ft. Ogden base ball team is expected out here Friday to play the Bermont team. There will be a picnic dinner at the ball park. Every body come and bring full baskets and witness a good game of base ball. There will be a dance at Mr. and Mrs. Burke's at night in honor of the visiting ball team.

Mr. James Turner returned home Sunday, after an absence of several weeks.

M. B. Mizell butchered some nice fat beef this week, so our people have been having a feast.

Mrs. Tillie Kustof is visiting in Arcadia.

Miss Edith Keith has as her guest, this week, Mrs. W. A. West, of Arcadia.—CITIZEN.

Beware of Ointments for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Poison for Cut-Worms

The grower who is troubled with cutworms can eliminate them by poisoned bait. Mix thoroughly a pound of paris green with 15 to 25 pounds of bran or cottonseed meal. Sweeten a quart or more of water, according to the amount needed, with enough syrup or molasses to make it decidedly sweet. Add enough salt to taste. Then moisten the poisoned mixture with the liquid. Make damp but not sloppy.

A better mixture, according to J. R. Watson, entomologist to the University of Florida Experiment Station, is the Kansas mixture: Mix thoroughly one pound of paris green with 20 pounds of bran. Grate or grind six or eight lemons or oranges and add the resulting juice and pulp to 2 gallons of water. Add 2 quarts of cheap syrup or molasses. Moisten the bran

and paris green mixture with this liquid. Do not get it too wet.

In using either mixture spread the bait around the bases of the plants about sundown. The worms do not like it dry. Like grasshoppers and mole crickets, the cutworms prefer the bait to the plants and will feed on it. Repeat the application each evening until the worms disappear.

The adults of the cutworms are various moths. These lay their eggs on grassy land. Worms seldom give trouble except on sod lands. It is advisable to place bait for them before plants are set. Plow the land two weeks, and place the bait a week before planting. The worms may be poisoned also by placing in the field cabbages, radishes, collards or other succulent vegetation, which have been dipped in some strong arsenical solution.

SOMETHING TO THINK ABOUT

Edited By Careless Jane

Man must always look outside himself for a standard of right and wrong.—Lowell.

While such a "buy at home" campaign is sweeping over the country, and Florida in particular, it may be well to think of some other things which may be done to keep our dollars at home, for when one departs it may be a long time in coming back if it returns at all.

Few people realize the proportion of money paid out for labor by employers in our various industries, which leaves the United States, Florida and our own community, going to European countries, never again to go into our own trade channels, and is thus lost to us forever. Hundreds of dollars leave Punta Gorda each month for Italy, Greece or other points in Europe, which will never again return to us. When labor is scarce and work must be done this loss cannot be prevented, but to hire non-residents and those who spend their wages outside the community, leaving our own residents, those who spend their earnings with our local merchants, and perhaps pay taxes, without work, is not the part of wisdom, even when the work is done better and cheaper by the foreigner, which is not often the case.

Then there are people who visit Florida each winter, who are well able to pay their expenses and will work at a wage below the standard. They spend only what is absolutely necessary for their maintenance on a scale far below what they would think of maintaining at their northern homes, and what money they receive is either sent or carried away to be invested or spent in a state far away.

Of course it is a temptation to any employer to pay the least possible price for the best possible results, just the same as it is for the prospective purchaser to buy from a mail-order house catalog, and the results are usually the same in each case, viz: the money goes abroad and the returns are unsatisfactory.

Another thing to think about is—

Furniture, Rugs, Mattings

Pianos, Window Shades, Etc., Etc.

A Visit Invited

Annual Report of the Florida Geological Survey

The Seventh Annual Report of the Florida Geological Survey is published and is available for distribution. The report contains several papers relating to the geology and natural resources of the State making in all a volume of 342 pages including four maps and 80 text figure illustrations.

Of special interest is the paper on the Pebble Phosphates of Florida in which is given the location, origin and conditions of accumulation of the Pebble Phosphate deposits. This paper contains 52 text figure illustrations showing characteristic features of the formation as well as many of the remarkable fossils that have been found in the phosphate beds.

Another paper that cannot fail to be of interest is one relating to the Natural Resources of an area in Central Florida, including parts of Marion, Levy, Sumter and Citrus counties. The geology, water supply and mineral resources of this area are described, and two maps included showing the distribution of the types of native vegetation and of the soils. This paper is followed by two papers giving the soil survey of Bradford and Pinellas counties with soil maps of each. The soil surveys were made in co-operation with the U. S. Bureau of Soils.

The volume may be obtained as a whole if desired, although the several papers are also issued as separates. The reports published by the Geological Survey are for general distribution, and this one as well as the preceding ones, so far as the supply on hand permits, may be obtained without cost by addressing the State Geologist, Tallahassee, Florida.

Music and Expression Club

Miss Elizabeth Mayes entertained the Music and Expression club Friday, October 8.

Miss Pennington joined the club. There were also several visitors present.

The program was as follows: reading, Elise Blount; piano solo, Dorothy Rasmussen; reading, Shopin life and works, Mrs. Corbett; vocal solo, Grace Laubach; piano solo, Lillian Corbett; reading, Bessie Fitzgerald; piano duet, Miss Pennington and Ethel Oliver; reading, Florence Robinson; and piano solo, Thelma White.

After being served with delicious refreshments, the club adjourned to meet at the home of Misses Isidora and Anna Mae Sikes, Friday, October 22 at 3:30.—Anna Laubach, Sec. pro. tem.

A lot of us cheerfully give away advice simply because we do not consider it good enough for our own use.

A PINE WHOOPING COUGH REMEDY

Mothers, Dr. Ball's Pine-Tar-Honey is just the remedy for your children's cold ailment. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucous in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening pine quality makes this an ideal cough remedy for children. Each passing year brings for it new friends. A family of growing children cannot afford to be without it. 25c a bottle.

Boarding the Lion.

In his volume "The New France" W. S. Lilly notes that Fouché was the only man who had the courage to stand up to his imperial master. Napoleon, who, perhaps, was less of a gentleman than any man that has ever achieved greatness, took pleasure in brutally reminding him of his role for the murder of Louis XVI. "Yes, sire," Fouché imperiously replied, "that was the first service which I had the happiness of rendering to your majesty." On another occasion, "Duke of Otranto," the sovereign said, "I ought to have you beheaded." "Sire, that is not my opinion," was the minister's calm reply.

Forfeited Citizenship.

The law upon the subject of forfeited citizenship reads as follows: "When any naturalized citizen shall have resided two years in the foreign state from which he came or five years in any other foreign state it shall be presumed that he has ceased to be an American citizen, and his place of abode shall be deemed his place of residence."

The Social Criterion.

Jones is a nobody. He speaks to everybody. His wife is a somebody. She speaks to nobody.—Puck.
